„Smart Customizing“ for the Indian Scout Bobber

***D-Breisach, 15th Nov 2018* With the motorcycle conversion of the Indian Scout Bobber the German based accessory manufacturer WUNDERKIND-Custom is showing its range of profile-rich parts for classic custom bikes, once again.**

Founded under the umbrella of ABM, WUNDERKIND-Custom initially developed only premium accessories for Harley Davidson bikes. This was very welcomed by the customers, so, the decision has been made to extend the product portfolio to further motorcycle brands and types. The most recent project bike is the Indian Scout Bobber which gave the WUNDERKIND Custom team a "tailor-made suit" out of over 14 accessories.

The intention of this conversion is obvious: to give a beautiful motorcycle a more coherent look. "Smart customizing" is what the German producer calls it; everywhere where the viewer sees a little unpleasant at the original motorbike, WUNDERKIND-Custom has specifically created and mounted a new part.

The result is a new cover series, starting at the standpipes of the fork via the generator and clutch cover up to the screws of the rear axle and struts. The entire belt drive was freed of unnecessary ballast and is now integrated much more coherent in the overall vehicle.

But that is not all: The handlebar area consists of individual adjustable levers, vibration-reducing grips and handlebar mirrors which match the overall design. The adjustable forward control ensures a more relaxed seating position for any body size shining as another design highlight at this motorbike. A side license plate holder and the fender LED rear light units clear out the back.

And the right sound is provided by an exhaust system of MILLER.

WUNDERKIND-Custom is a German premium brand of ABM which produces high-end accessories for motorcycles. It has been founded in 2013 by family head and CEO Christian Mehlhorn. While in the beginning the brand produced parts only for Harley-Davidson motorcycles it now contains also products for many common bike brands and custombikes. All products are constructed, designed, manufactured and retailed under the umbrella of the well-known company ABM Fahrzeugtechnik GmbH in the south of Germany.

ABM Fahrzeugtechnik GmbH is manufacturer of high-end accessories for sport and custom bikes. The company was founded in 1985 and named after the founder Arthur Berthold Munz. Since 2010, Christian Mehlhorn has been the managing director who is responsible for about twenty employees in the field of development, production, marketing and sales at the permanent business establishment in Breisach am Rhein, Germany. Meanwhile, the company has launched two brands: ABM ergonomic style & WUNDERKIND-Custom.
