

## PRESS INFORMATION

### Indian FTR 1200 models | New collection of accessories

***D-Breisach, 30th March 2020*** After the kick-off at the last Custombike Show, the new parts of WUNDERKIND-Custom for the road version of the popular Flat Tracker are all available, now.

With the new Custom Parts, the German-based accessory manufacturer has tried to give the bike a variety of extras – be it functional, optical or innovative. In order to serve all attributes, WUNDERKIND-Custom has immediately carried out a complete conversion – from front to the rear.

#### **Front conversion**

In the handlebar area, there are individually adjustable brake and clutch levers, E-marked handlebar end mirrors and LED indicators as well as a 26-millimeters capacity fluid reservoir.

#### **Rear conversion**

The rear was freed from unnecessary ballast. Reduced to the essentials, a lateral license plate holder with lighting and filigree processed, E-marked LED indicators on the lower part of the tail are found at the motorbike after the conversion.

#### **Special highlights**

Special highlights are the lowering kit for the front fender and a tailor-made front spoiler. With the first mentioned, the original fender is positioned about 12-millimeters closer to the front wheel, giving the bike a more sporty look. The custom-made front spoiler provides a visual enhancement and shines as a special eye-catcher at the motorbike.

#### **Design parts**

The covers and design parts, which have been created in coordination with the overall design of all accessories, give the motorcycle its visual perfection: Starting with covers for the reflectors on the fork stand tubes, a cover for the generator cover, a fluid tank for the foot brake and replacement up to a high-quality chain guard.

#### **Good to know**

All parts for Indian FTR 1200 and Indian FTR 1200 S models can be purchased at the webshop of the manufacturer, now. Each product corresponds to the requirements of road approvals or has a homologation paper.

WUNDERKIND-Custom is a German premium brand of ABM that produces high-end accessories for motorcycles. It has been founded in 2013 by family head and CEO Christian Mehlhorn. While in the beginning, the brand produced parts only for Harley-Davidson motorcycles it now contains also products for many common bike brands and custombikes. All products are constructed, designed, manufactured and retailed under the umbrella of the well-known company ABM Fahrzeugtechnik GmbH in the south of Germany.

ABM Fahrzeugtechnik GmbH is manufacturer of high-end accessories for sport and custom bikes. The company was founded in 1985 and named after the founder Arthur Berthold Munz. Since 2010, Christian Mehlhorn has been the managing director who is responsible for about twenty employees in the field of development, production, marketing and sales at the permanent business establishment in Breisach am Rhein, Germany. Meanwhile, the company has launched two brands: ABM ergonomic style & WUNDERKIND-Custom.
