Nicer flashing for Indian and Harley models

D-Breisach, 17th September 2018 If you are looking for shapely indicator/brake/rear light combination for the rear of your motorcycle you will find at WUNDERKIND-Custom a new and beautiful solution.

New from WUNDERKIND-Custom are these 3 into 1 combination “2Stripes” indicators with indicator/brake/rear light function, shaped to fit perfectly into the oval strut indentation as if fender and aftermarket indicator were made from one piece.

Thanks to the small size and the black surfaces, the rear and the new “2Stripes” appear like one unit, making the OE part a thing of the past. Further advantages are that the cables are hidden in the fender struts, and should a new E-tested LED unit need replacing, then this can be done separately without exchanging the whole housing. Supplied according to model with fitting material for Indian Scout/Scout Bobber/Scout Sixty, H-D Softail Breakout ‘14-‘17, H-D Softail models from ‘18, H-D Fat Bob up to ‘13 and H-D Street Bob Superglide.

WUNDERKIND-Custom is a German premium brand of ABM which produces high-end accessories for motorcycles. It has been founded in 2013 by family head and CEO Christian Mehlhorn. While in the beginning the brand produced parts only for Harley-Davidson motorcycles it now contains also products for many common bike brands and custombikes. All products are constructed, designed, manufactured and retailed under the umbrella of the well-known company ABM Fahrzeugtechnik GmbH in the south of Germany.

ABM Fahrzeugtechnik GmbH is manufacturer of high-end accessories for sport and custom bikes. The company was founded in 1985 and named after the founder Arthur Berthold Munz. Since 2010, Christian Mehlhorn has been the managing director who is responsible for about twenty employees in the field of development, production, marketing and sales at the permanent business establishment in Breisach am Rhein, Germany. Meanwhile, the company has launched two brands: ABM ergonomic style & WUNDERKIND-Custom.
